Action Item	M1.6 - Develop a plan that would minimize cut-through commercial traffic in residential areas

SUMMARY STATEMENT:

The Kerrville Police Department has conducted targeted enforcement of traffic violations on Riverhill Blvd. on a regular basis to address the concerns of the residents and enhance public safety. This has been an ongoing effort going back to 2002 and has been continued contingent upon patrol staffing and traffic unit availability. Other enforcement assets through cooperation with DPS have also been utilized in this effort. Signage that is currently in place indicating a restriction to through traffic for vehicles in excess of 7,000 lbs. is not enforceable due to the absence of an ordinance AND OTHER REQUIREMENTS. The establishment of a 7,000 lb. limit further complicates enforcement

efforts due to the challenges created in visually identifying vehicles that exceed the weight classification.

The concerns of residents in the area specifically related to their perceptions of traffic issues on Riverhill Blvd. have been a catalyst for frustration and complaints for the past two decades. A component of the issue is a perceived large volume of commercial truck traffic using Riverhill Blvd. as a pass through between SHWY 173 and SHWY 16 which significantly increases traffic counts, traffic noise and roadway damage / deterioration associated with larger and heavier vehicles. Residents in the area have observed that heavy vehicle traffic counts, noise and trucks using the roadway as a pass through are commonplace.

In September 2002, a City of Kerrville Engineering Division stop warrant analysis was conducted in response to citizen requests for the placement of multiway STOP signs at three intersections on Riverhill Blvd. in hopes of abating the perceived traffic issues. The average daily traffic count on Riverhill Blvd. from the 200 Blk. – 500 Blk. ranged from a low count of 617 vehicles to a high count of 1,330 vehicles.

In October 2018, the Police Department Traffic Unit conducted a data analysis on Riverhill Blvd. over 14 days to bracket timeline of potential violations as reported by residents. The measured data indicates that the average amount of daily traffic (AADT) for this roadway was 1,230 vehicles. Of those vehicles 97.5% were small and medium size vehicles and 446 were trucks, about 32 per day.

The Police Department assisted in development of an ordinance and enforcement strategy to address perceived large vehicle pass through traffic in residential areas, identified as an action item under the Kerrville 2050 Key Priority Area of Mobility/Transportation. Adoption of this ordinance provides for future additions to restrict commercial vehicle cut-through traffic on other residential area streets as determined to be necessary.

RECOMMENDED ACTION:

SUMMARY STATEMENT:

Since at least 1933, the City of Kerrville has regulated various aspects of the sale of alcoholic beverages. The City has enacted regulations prohibiting the sale of alcoholic beverages within 300 feet of any church or school. It is in the public interest to amend Chapter 10, "Alcoholic Beverages", to clarify the City's authority over the sale of alcoholic beverages, to include the process for the City's imposition and collection of fees, the prohibition of sales within areas zoned for residential use, and the prohibition of sales within 300 feet of churches, public hospitals, schools, and child-care facilities, and to adopt a variance process to such distance requirement.

This item was first presented for City Council consideration on May 28, 2019. City Council deferred item. Taking into consideration the recommendation from City Council, this item has been edited to remove the provision that would have granted a variance to the distance requirement that would have allowed the sale of alcoholic beverages within 300 feet of a church or school within the Central Business District or Downtown Core or mixed use districts. All variances to the distance requirement will only be granted upon approval of City Council.

RECOMMENDED ACTION:

The City shall send the notice to all such owners at the address indicated on the last approved City tax roll. The notice area for a variance request shall be measured in a direct line from the property line of the place of business.

(i) *Refiling.* When City Council denies an application or when the applicant has withdrawn a request after the giving of public notice, the City will not accept a new application for a variance for a period of 12 months from the date of a denial or withdrawal unless the variance is denied without prejudice.

(j) Fee. City Council may establish a reasonable fee for the administrative costs with processing a variance under this section, which such fee shall then be specified within the City's Fee Schedule.

In addition, the City Secretary shall report any such failure to pay the fee to the Texas Alcoholic Beverage Commission.”

SUMMARY STATEMENT:

During the year, events occur that require amending the originally adopted budget. Transfers between expenditure line items with a \$0 net impact to the fund can be approved by the City Manager. Amendments that increase overall revenue or expenditures require approval from the City Council in the form of an ordinance that requires two readings and two votes.

The attached mid-year budget amendment provides detail on all of the requested amendments. A summary of those amendments is as follows:

1. Transfer of excess fund balance based on audited FY2018 financial statements including \$200,000 to the General Asset Replacement Fund, \$200,000 to the General Capital Projects Fund, and \$100,000 to the Water Asset Replacement Fund. In accordance with our financial policy, excess fund balance can be appropriated for capital

items. The City's General Fund unassigned fund balance will be at 30% of operating expenditures, still exceeding our target of 25%, following the transfer. The transfers will be used as cash financing for capital projects and capital asset replacement purchases that Council will approve as part of the FY2020 budget process. In addition, Council will separately approve any individual purchases or contracts over \$50,000.

2. An amendment to account for the receipt of \$102,000 from HEB for the Hays St. right of way. The proceeds will be received by the General Fund and transferred to the General Capital Projects fund to be used as cash financing for capital projects that Council will approve as part of the FY2020 budget process.
3. An amendment to account for the receipt and related expenditures for \$35,000 in grants received for recycling receptacles and household hazardous waste collection.
4. An amendment authorizing the \$20,000 purchase of an undercover police vehicle using the accumulated fund balance in the Police Special Revenue Fund. As of 9/30/18, the available fund balance that can only be used for Police related purchases was \$60,978.
5. An amendment related to our banking agreement with Wells Fargo. Our contract contains a provision that allows us the option of receiving interest and paying fees or letting the activities net with no cash implication. With rising interest rates this year, we switched to the option that pays interest and charges fees. This option is resulting in net revenue of approximately \$2,000 per month. The budget was prepared using the no cash option. The amendment authorizes \$31,500 in banking fees offset by interest revenue.
6. An amendment to record the receipt of \$27,853 in Fire and EMS grants and donations. The revenue will be used to pay for tools, equipment and overtime related to the revenue.
7. An amendment to record \$14,610 in additional donations to the Library Memorial Fund. The amendment authorizes the donations to be used for purchasing items for the library including books, magazine racks and technology items.
8. An amendment authorizing \$14,838.26 in additional interest expense in the Water Debt Service Fund. The final amortization schedule for the Texas Water Development Board (TWDB) debt was not received until December 2018 and it was slightly different than the estimated amounts. The additional expense will be paid for using interest revenue in the fund that has been better than budget. Council approved issuance of the debt in 2018.
9. An amendment with no cash implication, but that is required for proper accounting and financial statement reporting purposes. The TWDB debt is structured differently than other debt. Rather than receiving the proceeds when the loan closes, the funds were put into an escrow account. The City receives distributions from the escrow account as project expenditures are incurred for the Legion Lift and TTHM projects. We anticipated these funds would go directly to the Water Capital Projects Fund. However, for financial statement reporting purposes, the funds must come to the Water Fund first and then be transferred to the Capital Projects Fund. The amendment is for the total amount of escrow

distributions expected for both projects in FY2019.

Note:

Our banking agreement with Wells Fargo contains a provision that allows us the option of receiving interest and paying fees or letting the activities net with no cash implication. With rising interest rates this year, we switched to the option that pays interest and charges fees. This option is resulting in net revenue of at least \$2,000 per month. The budget was prepared using the no cash option. This amendment authorizes the additional banking fees and shows offsetting revenue.

Note:				
The actual debt amortization schedule on the Water Fund's Texas Water Development Fund debt was slightly different than estimated during the FY2019 budget process, resulting in \$14,438.26 more in debt service in FY2019. FY2019 Mid-Year Budget Amendment

Fund	Account #	Account Name	Debit	Credit
------	-----------	--------------	-------	--------

Note:

This amendment is to show an accounting treatment requested by our auditors. The loans from TWDB were funded to an escrow account at the closing date. The City receives distributions from the escrow account as project expenditures are incurred for the Legion Lift and TTHM projects. We anticipated that these distribution would go directly to the Capital Projects Fund. However, for financial statement reporting purposes, the funds must come to the Water Fund first and then be transferred to the Capital Projects Fund. This amendment is for the total amount of escrow distributions expected for both projects in FY2019.
