Ribbon Cutting and Grand Opening of River Trail at Schreiner University's Trailhead and Beer Garden

The City of Kerrville's recently completed segment of the Kerrville River Trail now accesses Schreiner University's campus. The approximate one-mile trail extension runs from G Street to the university. The trail segment was completed last fall, with the majority of the trail accessible to the public. The portion of the trail on the SU campus, however, remained closed to the public during the Covid-19 pandemic. The grand opening and ribbon cutting will be held on Saturday, June 12, with family fun activities offered by SU beginning in the morning and the formal ceremony in the evening.

“Connecting the Kerrville River Trail to Schreiner University is an exciting asset to the community and is indicative of the strong partnership between both organizations,” said Ashlea Boyle, director of Parks and Recreation. “This extension provides the connectivity and opportunity for the students and surrounding neighborhood to access the trail, and for the community to access Schreiner University. Creating a connection to the university was a specific action item in Kerrville 2050 relating to the continued development and extension of the River Trail. The trail enhances the quality of life for our community in addition to providing an economic driver.”

The ribbon cutting ceremony will be open to the public and take place at 6 p.m. with members of Schreiner University and the City of Kerrville. At 7 p.m. the outdoor stage will light up with a free concert by The Texicana Mamas.
