This mural is a collaborative project between the City of Kerrville, Kerrville Urban Trail System (KUTS), and Big Seed.. The

project is looking to improve the current basketball area in Carver Park, and will address positive outcomes for the community and create public art that reflects local culture. Deidre Flores explained that the hope for this project is to achieve the following outcomes:

- 1) Provide access to art for all people regardless of background, age, or ability.
- 2) Invite pedestrian activity and inspire a healthy, connected community.
- 3) Highlight the creative economy and create jobs through project implementation.
- 4) Create a focal point that can become a destination driver to attract cultural visitors.
- 5) Revitalize underutilized space, increase safety, and inspire redevelopment.
- 6) Proactively eliminate graffiti vandalism and promote a positive sense of place.
- 7) Establish a creative and cultural landmark in the Doyle District.

The project will take approximately four weeks, depending on the weather, and is being funded through Big Seed. The ribbon cutting will be scheduled following the completion of the project.
