### **Events slated in preparation of upcoming solar eclipses**

**Kerrville, Texas (March 30, 2023)** – The Kerrville City Council's Eclipse Planning ad hoc committee and community leaders have been hard at work preparing for the two upcoming solar eclipses in Kerrville. An annular solar eclipse will occur on Oct. 14, 2023, and a total solar eclipse will take place on April 8, 2024. The path of totality for these events will travel across several regions of Texas, and the Hill Country finds itself in the middle of both. Many eclipse-related events are on tap in the upcoming months in Kerrville.

### **Kerrville Eclipse Kickoff**

The Kerrville Eclipse Kick-Off Party will be hosted at the Butt-Holdsworth Library this Saturday, April 1, 2023, from 10:30 a.m. to 4:30 p.m. The event will celebrate the one-year countdown kickoff to the 2024 total solar eclipse. This event is a great opportunity to learn more about the two solar eclipses on the horizon in Kerrville. The event is free to the public and will feature an inflatable planetarium, children's crafts, and refreshments. Advance registration for the planetarium is required. Reserve your free spot by calling (830) 258-1274. Additional programming will include two guest speakers — Karen Guerriero from Kerrville Pets Alive and Mark Ward from Hill Country Astronomers.

Additional upcoming solar eclipse educational opportunities include:

- April 6: Sprouts Solar Pre-K Program, 10:30 - 11:30 a.m. (Riverside Nature Center)
- April 20: West Kerr Chamber Shadow of the Moon Fundraiser, 5:30 - 9 p.m. (Inn of the Hills)
- May 11: Kerrville Area Chamber of Commerce Eclipse Lunch & Learn, 12 - 1 p.m. (Chamber of Commerce)
- May 11: City of Kerrville Eclipse Town Hall Meeting, 5:30 – 6:30 p.m. (Dietert Center)
- May 24: DLI Solar Eclipse presentation featuring guest speaker Kim Arvidsson, Ph.D., 6 - 7:30 p.m. (Schreiner University – Junkin Hall Ministry Center)

### **Kerrville River Festival and Annular Solar Eclipse Celebration**

Further on the horizon is the fourth annual Kerrville River Festival, which will be hosted in conjunction with the annular solar eclipse on Saturday, Oct. 14, 2023. The 2023 annular eclipse will be a partial eclipse that will create a “ring of fire” around the sun. Kerrville River Festival

will incorporate programming to celebrate the celestial occasion, educate attendees on proper solar eclipse viewing practices, and celebrate Kerrville's incorporation and culture.

### **Kerrville Eclipse Festival**

There are only 13 states in the U.S. that will experience the April 2024 total solar eclipse. The length of totality (4 minutes and 25 seconds in Kerrville), the pleasant weather, and the proximity to I-10 will make Kerrville one of the most desirable areas to view the eclipse in the country. Totality is the period of darkness where the moon's disk completely blocks the sun. The Kerrville area is only a few miles from the direct centerline of the eclipse. The closer to the centerline you are, the greater length of totality you will experience. It is reasonable to expect hundreds of thousands of visitors for this historic, once-in-a-lifetime event in the Hill Country.

On April 8, 2024, the City of Kerrville will host the Kerrville Eclipse Festival at Louise Hays Park, 202 Thompson Dr., to celebrate this natural phenomenon. Be sure to stay tuned for more details and information on the event and other viewing locations.
