

January 22, 2024

As we reflect on the annular eclipse that happened in October, we are excited and looking forward to the total eclipse coming next April. The annular eclipse met our expectations. We were ready and prepared, and now we are setting our sights on April.

While the total eclipse brings with it more logistical challenges, our city, county, and Peterson Health officials have been hard at work for months coordinating our response, and will continue to meet regularly up until the day of the eclipse. We are ready to support a great experience for this once in a lifetime event in our community. Aside from the inconvenience of heavy traffic, with proper personal and community planning we expect this to be a positive experience for the Texas Hill Country. This is a great opportunity to showcase our businesses, tourism, hospitality and community charm.

We know there are many questions. We encourage you to visit [www.kerrvilleeclipse.com](http://www.kerrvilleeclipse.com) to access all the latest information for this event. This is where the Convention and Visitor's Bureau, City of Kerrville, Kerr County, Peterson Health, and others will update information in one centralized location, including a FAQ section.

As we get closer to April 8, 2024 you will see messaging increase on what to expect concerning transportation, parking, public safety and accessing medical care and other community amenities. We hope you will take the time to educate yourself as we get closer to the event and prepare yourselves accordingly.

We have a unique opportunity to show visitors from Texas and beyond why we all love and call the Hill Country home. We appreciate your cooperation, patience, and support to our community in making this a safe and enjoyable event for all.

Sincerely,

  
Mayor Judy Eychner  
City of Kerrville

  
Judge Rob Kelly  
Kerr County

  
CEO Cory Edmondson  
Peterson Health
