### **Work to begin Monday on improvements at Water Street/Earl Garrett intersection**

**Kerrville, Texas (Jan. 18, 2024)** – The City of Kerrville and its contractor, Elecnor-Belco, will begin construction along Water Street at the intersection of Earl Garrett for improvements to pedestrian safety and signalization beginning Monday, Jan. 22, 2024. The project is funded by the Texas Department of Agriculture for a Texas Community Development Block Grant Program (TxCDBG) grant. The project consist of a full intersection and traffic signal rebuild at Water and Earl Garrett to include new curb ramps, new crosswalk, updated pavement markings, and new pedestrian and traffic signal equipment.

The project is expected to last two months in duration. During this period, vehicle and pedestrian access to local businesses will be maintained, with any road closures indicated by temporary street signage.

The City of Kerrville apologizes in advance for any inconvenience these closings may cause, and we thank all citizens for their patience as these improvements are completed. Please feel free to contact our Public Works department at (830) 258-1221 with any questions or concerns.
