Tech Talks at the library: All about artificial intelligence (AI)

Kerrville, Texas (May 30, 2024) – Join the Butt-Holdsworth Memorial Library staff on Tuesday, June 4 at 6:30 p.m. in the library's downstairs meeting room as we welcome Amazon Cybersecurity Engineer Hysun Chung for the first in a series of engaging talks and live demonstrations on artificial intelligence (AI). Chung has a background in software development and a passion for teaching, and will help separate the facts from the hype surrounding AI.

Come learn how to harness this exciting new technology to enhance your life using just your smartphone. The presentation is free to the public. Please enter the library meeting room from the playground.

For more information, contact the library's reference desk at (830) 258-1274, or visit the city's website at www.kerrvilletx.gov.
